

PENDING CLAIMS

70. A cranberry food product comprising a blended juice, including:
a cranberry juice component that has a juice anthocyanin content of about 10 mg/100ml or less and
a component selected from another juice component, water, sweetener or acid,
wherein the juice component derived from cranberries having said anthocyanin content is the sole component from cranberries in the blend.

85. The food product of claim 70 wherein the juice component derived from cranberries has a juice anthocyanin content of about 8 mg/100 ml or less.

86. The food product of claim 70 wherein the juice component derived from cranberries has a juice anthocyanin content of about 3.5 mg/100 ml or less.

88. The food product of any one of claims 70, or 85-86 wherein said juice component derived from cranberries is about 2 to 35% of said blended juice.

89. The food product of any one of claims 70, or 85-86 wherein the blended juice has an anthocyanin content of about 10 mg/100 ml or less.

90. The food product of any one of claims 70, or 85-86 wherein the blended juice has an absorbance of 515 nm light of about 0.5 or less.

91. The food product of any one of claims 70 or 85-86 including added water.

92. The food product of any one of claims 70 or 85-86 including another juice component.

93. The food product of any one of claims 70, or 85-86 including added sweetener.

94. The food product of claim 93 wherein the sweetener is sucrose.

95. The food product of any one of claims 70, or 85 - 86 including added acid.

96. The food product of claim 95 wherein the added acid is citric acid (or citrus juice).
97. A cranberry food product comprising a blended juice, including:
a cranberry juice component that has a juice anthocyanin content of about 10 mg/100 ml or less,
another juice component, and
a sweetener,
wherein the juice component derived from cranberries having said anthocyanin content is the sole component from cranberries in the blend.
99. The food product of claim 97 wherein the sweetener is sucrose.
100. The food product of claim 97 including added acid.
101. The food product of claim 100 wherein the added acid is citric acid (or citrus juice).
102. The food product of claim 97 including added water.
103. The food product of claim 97 wherein said juice component derived from cranberries is about 2 to 35% of the blended juice.
104. The food product of claim 97 wherein the blended juice has an absorbance of 515 nm light of about 0.5 or less.
105. The food product of any one of claims 97 or 99-104 wherein the juice component derived from cranberries has an anthocyanin content of about 8 mg/100 ml or less.
106. The food product of any one of claims 97 or 99-104 wherein the juice component derived from cranberries has an anthocyanin content of about 3.5 mg/100 ml or less.
107. The food product of any one of claims 70, 85-86, 97 or 99-104 wherein the blended juice has a color determined substantially by said cranberry juice component.
